

Inside the Minds: The Art & Science of Environmental Law--Industry Insiders on Regulating, Protecting, & Conserving Our Surroundings

Inside the Minds: The Art & Science of Environmental Law is an authoritative, insiders perspective on the laws which govern the environment, the essential capabilities of the successful practitioner, and the future of this legal discipline, on a global scale. Featuring Department Heads, Group Chairs, and Leading Partners, all representing some of the nations top firms, this book provides a broad, yet comprehensive overview of the practice area, discussing the current shape and future state of environmental regulation, from the founding doctrines, to the pivotal cases of today. With a detailed explanation of the governing statutes of environmental law and key strategies for success, addressing the most important issues facing the environment today, these authorities offer practical and adaptable strategies for any organization to achieve true environmental awareness. From the steps involved in counseling clients and handling negotiations, to tactics around keeping up to date with the latest technological advances and ever changing laws, these authors articulate the finer points around environmental law now, and what will hold true into the future. The different niches represented and the breadth of perspectives presented enable readers to get inside some of the great legal minds of today as experts offer up their thoughts around the keys to success within this fascinating practice area.
