

FATAL SUCCESSION (A Sam Pierce Novel Book 1)

FATAL SUCCESSION is a thriller that deals with a political conspiracy. The conspiracy begins on the second day of a Presidential vacation. The President narrowly escapes the attack on his life. He survived, but is left missing and proclaimed dead. The Vice President, Speaker of the House and the Secretary of State were not as fortunate and fall victim within moments of the initial attack. Those remaining in the line of succession were either too young, not citizens by birth, or otherwise not capable of ascending to the highest office of the land. By the next morning the incumbent administration collapses. With a potential constitution crisis looming, Congress panicks and rushed to appoint a former President as the Acting President. Within days he is elevated to the Presidency. Finding and divulging the truth behind the conspiracy is left to Sam Pierce, an advisor and close personal friend of the Presidents. Sam spearheads the Presidents rescue, reveals the conspirators, saves the Presidency and then tracks down the conspirators.
