

WHAT GENERALS DO AT NIGHT

A rouge General and his officers stationed at a nuclear air force base in Philadelphia decide to take over the White House and remove the president of the United States from office on charges of treason for threatening to shut down their base to save money. Under the direction of General Arnold Red Dog Sorkin, the citizens militia --some hoping for a return of the Confederacy -- the mutineers kill or imprison the loyal Air Force officers. To back up their demand that the President be tried for treason, the coup leaders attempt to re-direct ICBM Minutemen missiles to domestic targets, including New York and Washington D.C. But old Nixon-era equipment and technology fails to work, and the botched attempt to re-direct the ICBMs puts the missiles in a no recall mode. Even as the lawyer for the Marines arrives at the White House, the deadly Minutemen start to go off to ignite the planet-- while the world's only hope to save the President and the nation is a fearless Philadelphia detective who may be dying.

WHAT GENERALS DO AT NIGHT includes a cast of wild and dangerous characters across the beltway and the military, a fast-paced self-styled Cinema Novella by Winter Kills screenwriter-director William Richert, author and actor described by the Lincoln Center Film Society as A bold, brash uncompromising figure in the tradition of Orson Welles and John Cassavetes. His first novel, acclaimed in the tradition of James Joyce by the NY Herald Tribune - combined with Hemingway style according to the NY TIME - , was AREN'T YOU EVEN GONNA KISS ME GOODBYE , written when the author was still a teenager, and which was made intact into the film JIMMY REARDON starring River Phoenix in his first leading role. This cinema novella is based on true facts about the aging US nuclear arsenal consisting of tens of thousands of bombs, each a

thousand times more powerful than the antiques dropped onto Japan, embedded in states across the USA, hidden almost entirely unnoticed in fields and farms and cities and air bases across the country. Each powerfully designed and hyper-accurate multi-tipped Minuteman missile is a ticking nuclear time bomb no matter where it is sent, with explosive deadly afterlives of thousands of years, with waste that cannot be buried. WHAT GENERALS DO AT NIGHT is fist-punch satire with comedy of the darkest kind, an original outing in the unabashed style of DR. STRANGELOVE, meant to shed entertaining light via outrageous characters and plot turns in a thriller that is truly an apocalyptic chiller, based on the nuclear facts, which taken at their worst, could end the world in less than the 3 minutes left on the Doomsday clock, now ticking away.
