

## Ghosts (New Directions Paperback)

The most unsettling and stunning of Airas short novels published by New Directions. On a building site of a new, luxury apartment building, visitors looked up at the strange, irregular form of the water tank that crowned the edifice, and the big parabolic dish that would supply television images to all the floors. On the edge of the dish, a sharp metallic edge on which no bird would have dared to perch, three completely naked men were sitting, with their faces turned up to the midday sun; no one saw them, of course. ? from Ghosts Ghosts is about a construction workers family squatting on a building site. They all see large and handsome ghosts around their quarters, but the teenage daughter is the most curious. Her questions about them become more and more heartfelt until the story reaches a critical, chilling moment when the mother realizes that her daughters life hangs in the balance.
